Quiz 5

Name: _____

For reference see the AIP Style Guide Celia Elliott lectures and [http://en.wikipedia.org/wiki/List_of_Latin_phrases_\(full\)](http://en.wikipedia.org/wiki/List_of_Latin_phrases_(full))

Define the following:

i.e.

e.g.

et al.

cf.

[sic]

viz.

vs.

N.B.

Ibid.

Correct the following mistakes:

Smith et. al. [3] showed that the experiment was not successful, e.g., no useful results

were obtained. This is because the electron velocity never exceeds $0.1c$ (i.e., Fig. 1 from

Jones et al). The slower speed is caused by problems with the voltage source (i.e. dust on

the contacts, internal resistance, resistance in the wires, *etc*).
